

CHILD DEVELOPMENT & LEAD EXPOSURE

THREE DEVELOPMENTAL SCREENINGS BY THREE 9, 18 and 24-30 months

Developmental milestones are skills a child develops with age

Developmental screening is a way to check if a child is reaching milestones

Call now to schedule your child's free developmental screening

LEAD TESTING - TWICE BY TWO 12 and 24 months

Every child needs **two** lead tests by the age of **two**

Ask your child's **doctor** about getting him/her tested

Exposure to **lead** can cause:

- ▶ Damage to the **brain & nervous** system
- ▶ Slowed growth & **development**
- ▶ **Learning & behavior** problems
- ▶ **Hearing & speech** problems
